DESCRIPTION AND LEARNING STRATEGY

Most public sector organizations are experiencing the impact of downsizing, budget cuts, and demands for more effective resource allocation. One increasingly visible impact is the need for decisions to be made with reliable data provided by staff studies. The importance of a good staff study has increased exponentially during this time of change.

Participants will examine the major components of a staff study and identify methods to increase their effectiveness when doing a study. The course consists of mini-lectures, interactive discussion, and small group work. Participants will gain a clear and consistent understanding of suggested skills and processes through opportunities to practice those skills and to expand their awareness of available resources. A specific case situation, which can be a current issue provided by the participant, will be worked through the course.

Through these activities, participants will develop skills in dealing with data and presenting information, understand the value of specific processes and work flow model, and become more comfortable operating independently to execute projects requiring effective staff work.
